PRESS RELEASE

September 10, 2009

Acrylon Plastics To Acquire Spartech Profiles Plant In Winnipeg

Acrylon Plastics is pleased to announce we have entered into an agreement to acquire Spartech Corporation's Profiles Division in Winnipeg, effective October 5, 2009.

This acquisition expands Acrylon's capabilities and capacities to become Western Canada's largest custom extruder of plastics profiles increasing Acrylon's profile extruding capacity to 26 extrusion lines. The current plant and employees will continue production as part of the Acrylon family.

With the addition of Spartech Corporation's Canadian Profiles Division, Acrylon will employ 250 solution providers throughout 225,000 sq ft of manufacturing space within 5 operations in Canada.

Your Idea, Our Solutions™

With over 30 years experience, Acrylon has a unique manufacturing diversity within the plastics industry by employing three plastics processes – Profile Extruding, Rotational Molding and Thermoforming. Utilizing these processes, Acrylon manufactures an extensive variety of custom plastic parts for a wide range of end use applications including Residential and Commercial Windows, Buses, Tractors, Combines, Electric Cars, Fencing, Commercial Building Systems and Residential Playground Sets to name just a few. Playground components manufactured by Acrylon are featured in the playground set installed by President Obama at the White House.

Awarded the 2009 Canadian Manufacturers and Exporters Emerging Company Award, Acrylon has emerged as a leading provider of innovative, cost effective solutions within the plastics industry supporting over \$10 Billion in sales of their customer's product lines. As the primary supplier of plastic products for leading Original Equipment Manufacturer (OEM) Companies, Acrylon excels at working closely with customers to refine their product design for superior results and performance. ***Your Idea, Our Solutions™***

Acrylon Plastics continues to grow by focusing on core values of Customer Service, Quality and Continuous Improvement. These core values guide ongoing investment in personnel, technology, capacity and facilities as evidenced by the acquisition of Spartech Corporation's Profiles Division in Winnipeg and in the fall of 2008, Western Profiles.
